

2022 FESTIVAL OF SHARING

LET'S BE SAFE!

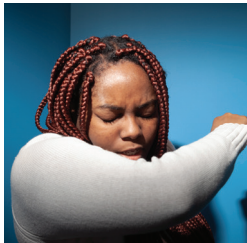

Consider buying the items for the kits online or using a curbside pickup service at a local store.

Clean your hands at the door and schedule regular hand washing reminders.

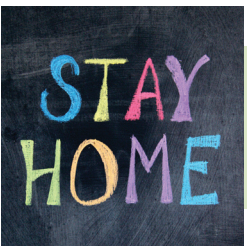

Regularly disinfect any workspaces - like tables and desks.

Avoid touching your face. Cover your coughs and sneezes.

Wear a facemask when you deliver kits to a depot or when you're around other people.

If you feel sick or if you live with someone who is, stay home.
